# **It Is Illegal to Cage Your Dog All Day**

**A fine of NT15000-NT75000 will be  
issued to anyone who cages their  
pet 24 hours a day.**

Dogs need to exercise outdoor regularly. Dogs kept in cages must be walked at least 3 times a day in order to release their energy. Studies have shown that long-term confinement is detrimental to the physical and psychological well-being of animals. Animals caged for extended periods can develop many different disorders, including aggression and inability to bond with humans.

If you see a dog being caged 24/7, please contact Taiwan SPCA immediately. Let's work together to make a better Taiwan for both people and animals.
